

40V Max Brushless Earth Auger

HEAVY DUTY BRUSHLESS

DG002G - Product Overview

40V Max Brushless Earth Auger

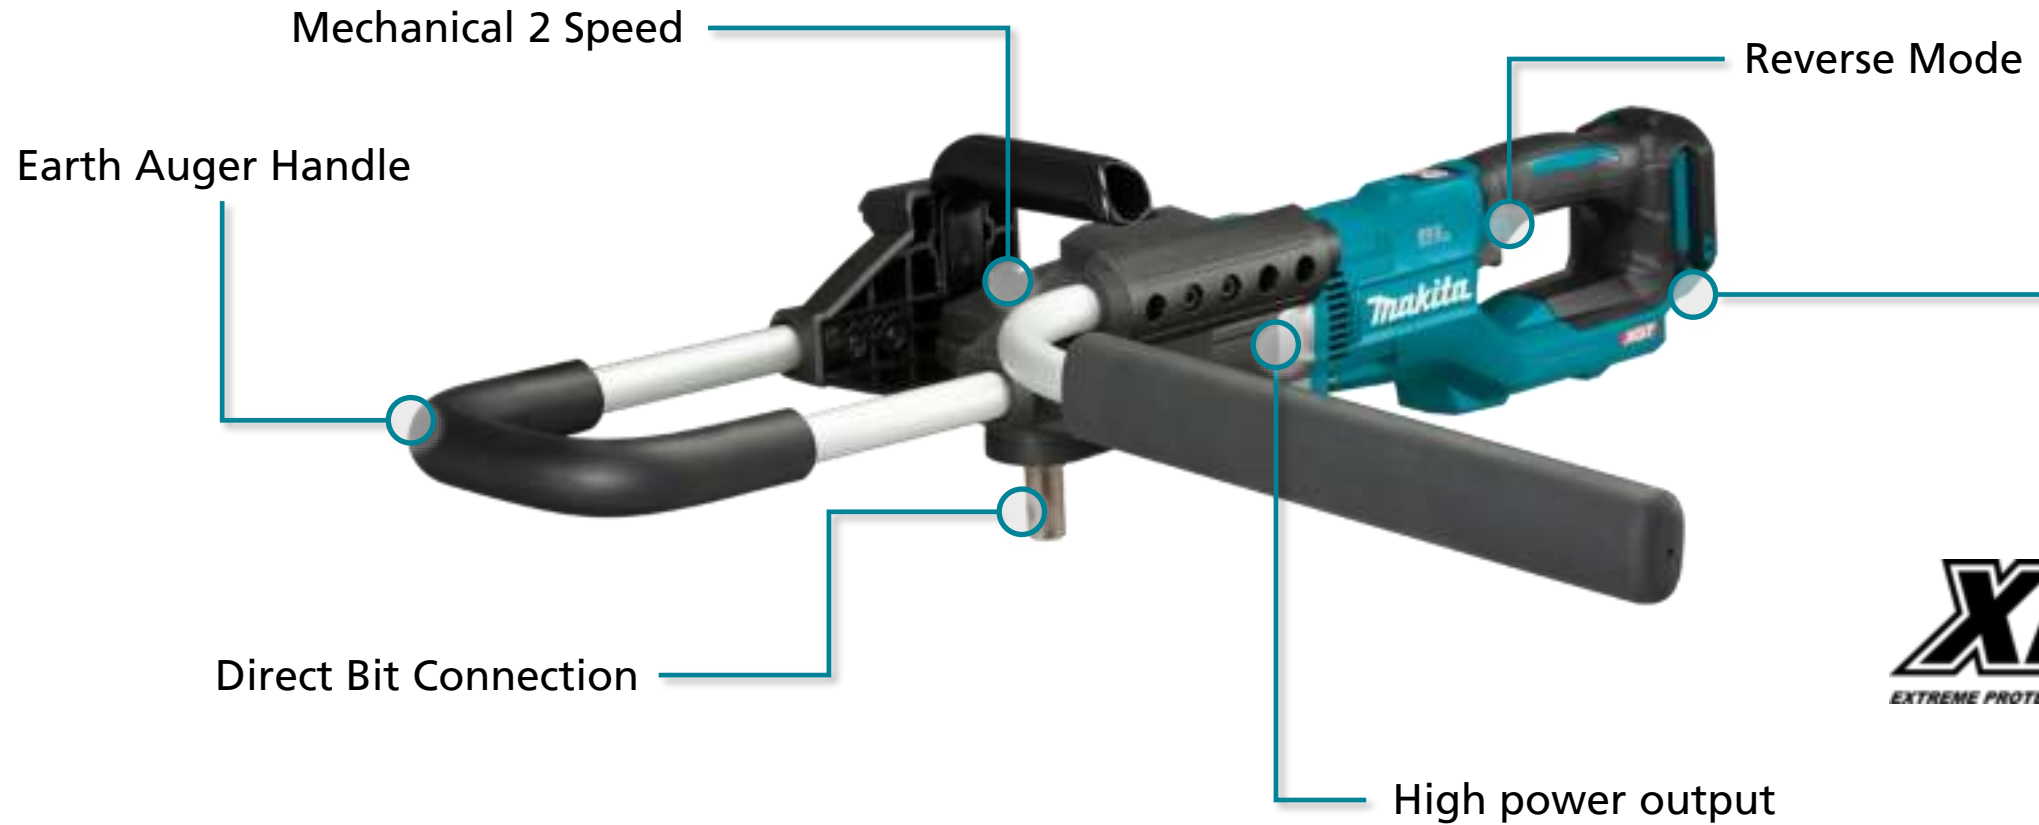

DG002G is powered by Makita's 40V Max XGT technology and features a powerful brushless motor, which provides 1.35kW of power allowing you to get through the toughest drilling jobs..

Featuring 2 speeds, the DG002G provides the versatility to drill into a variety of materials, with a maximum drilling capability of 200mm in soft material (sand and soil) and 150mm in heavy material (stone mixed soil). The auger handle allows the user to have maximum control whilst drilling and the reverse switch makes removal of the auger quick and easy.

Extreme Protection Technology (XPT) allows it to be used throughout the day in a majority of conditions. Auger attachments connect directly onto the spindle with no need to tighten keyless chuck.

Product Overview

Product Specifications

		DG002G
Drilling Capacity	Sand (Light Load)	200mm
	Stone – Mixed Soil (Heavy Load)	150mm
No Load Speed	High	0 – 1,400rpm
	Low	0 – 350rpm
Max Power Output		1.35kW
Reverse Switch		Yes
LED Light		Twin LED (Pre/After Glow)
Overall Length		846mm
Skin Weight		6.1kg
Weight (with battery)		7.4kg (BL4050F)
Voltage		40V Max

- **Direct Bit Connection** – no need to tighten keyed chuck, bits connect directly onto spindle with locking pin.
- **Torque Limiter** – provides added safety in the event of the auger hitting solid material
- **Mechanical 2 Speed** – allows the user to optimise the speed for the job at hand by matching the accurate speed to the material being worked in.
- **Earth Auger Handle** – provides better control whilst digging, includes a side bar which rests against the user’s leg to minimise the amount of kickback, making it easier to drill holes.
- **Reverse Mode** – allows for easy extraction from material if the auger becomes jammed or stuck.
- **XPT (Extreme Protection Technology)** – a series of protective seals inside the tool designed to provide improve resistance to water and dust by diverting it away from the tool’s key internal components.
- **High Power Output** – the high power 40V Max XGT Li-Ion battery allows for continuous operation in heavy-duty applications providing 1.35kW of max power output.

Advantages

Efficiency

Mechanical 2-speed setup for selecting optimal rpm for task at hand

Control

Earth auger handle and side bar provides added control and reduces kickback

Convenience

Bit connects direct to spindle with locking pin

Power

40V Max XGT battery provides 1.35kW of max power output

Accessories

Standard Accessories

	922453-2	Hex Socket Head Bolt M8 x 30
	-	Hex Wrench 5
	783204-6	Hex Wrench 6
	-	Hex Wrench 10

Optional Accessories

	E-13611	50mm x 800mm Earth Auger & Locking Pin
	E-13627	60mm x 800mm Earth Auger & Locking Pin
	E-13633	80mm x 800mm Earth Auger & Locking Pin
	E-07294	100mm x 800mm Earth Auger & Locking Pin
	E-07303	150mm x 800mm Earth Auger & Locking Pin
	E-07319	200mm x 800mm Earth Auger & Locking Pin
	E-07325	540mm Earth Auger Extension & Locking Pin
	E-07331	Locking Pin
