**NEW Carriable On-Gun  
Welding Fume Extraction**

---

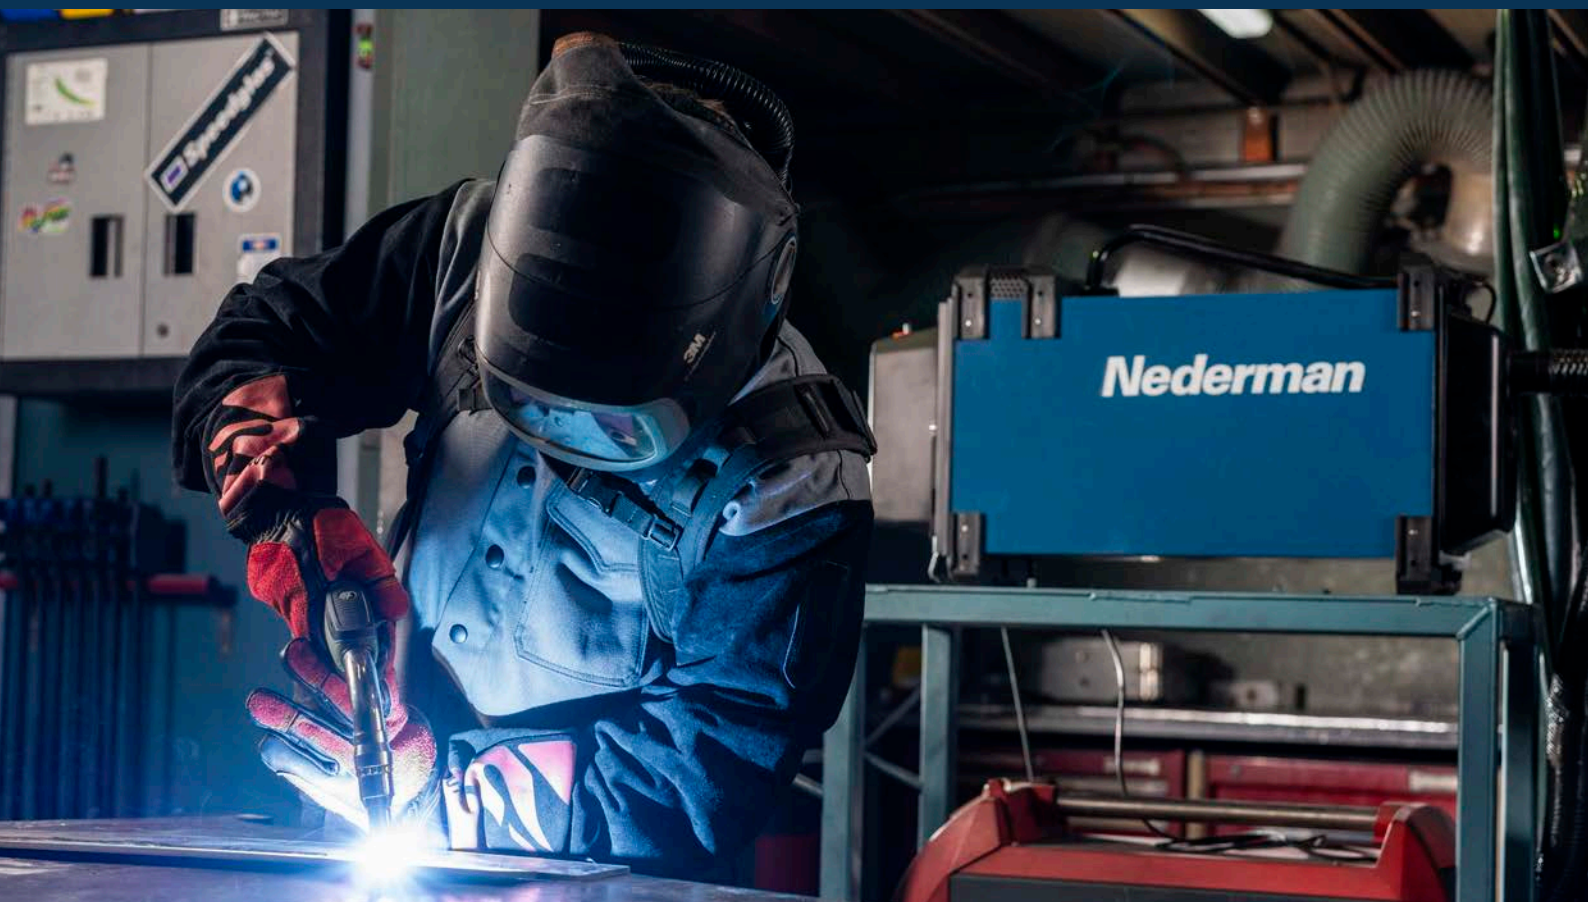

# Fume extraction where you need it most

AWS has launched a new carriable on-gun fume extraction option, combining the new **Nederman** Fume Eliminator 860 and the industry leading **Translas** fume guns.

These plug and play on-gun fume extraction kits are designed to be carried to the working area and will automatically begin extracting welding fume as soon as welding begins.

## KEY FEATURES

- Available as a 250A or 400A fume torch kit
- Lightweight and ergonomic Translas fume gun with 360° swivel
- Portable and easy to carry extraction unit (16kg)
- Automatically maintains the set extraction flow (fully adjustable)
- Automatic start/stop
- 'No-Touch' welding fume disposal
- Warnings when the filter is 85% and 100% full
- High efficiency Nanofiber filter (99.7% efficiency)
- Single phase system
- Dimensions: H:406, W:222, L:800 (mm)

The Nederman Fume Eliminator 860 with Translas On-Gun Extraction kits are available with **either** a 250 amp or 400 amp extraction gun:

### **Nederman 860 with Translas 250A On-Gun Extraction Kit**

Part Number – FPS250S

### **Nederman 860 with Translas 400A On-Gun Extraction Kit**

Part Number – FPS400S

#### **KIT INCLUDES**

- Nederman Fume Eliminator 860
- Translas 8XE MINI 250A OR 8XE 400A, 4 metre, 45°, Euro Connection, Air Cooled Fume Torch
- Auto Start/Stop Sensing Cable
- All Required Hoses, Couplers, and Adaptors
- Airflow Meter

## About AWS

AWS was established in 1994 and has played a key role in the welding industry ever since.

As an advocate for welders' safety in Australia and New Zealand, AWS has published numerous Welding Safety White Papers, Welding Industry Reports, and Welding Fume Control Frameworks.

As a company that specialises in welding safety equipment, it is our goal to raise awareness on the important issues that welders face.

For more information on welding fume monitoring, welding PPE, or welding fume extraction options, please contact AWS.
